

## Exhibit of Old School Suggested

**M**ISS INEZ L. GARVER, 6321 39th Av. S. W., a former schoolteacher, hopes the **Warren Avenue School** will be preserved as a World Fair exhibit instead of being demolished for fair space.

"We could really make it a showplace—a typical old-fashioned American school," Miss Garver said.

Miss Garver suggested cleaning the grounds and building and then covering the walls and blackboards with letters from former pupils. Display cases could show attendance records, grades and events of years gone by.

"And outside there could be the names and addresses of modern schools for people to visit," Miss Garver added.

Miss Garver taught school for 32 years—most of that time in Chehalis.

"So you can see why I am kind of fond of school-houses."
