Rockefeller to Finance Study Of Public Lodge on Mt. Rainier

Reds Seize Thousands In Hungary

By Associated Press
BUDAPEST, July 27. — Usually well-informed sources here estimated today that 1,500 to 2,000 Hungarians — perhaps as many as 10,000 — have been arrested in the latest roundup by Communist police.

The purpose of the new arrest wave was to crush suspected underground preparations for a new anti-Communist revolution like that of last October, according to a statement made Thursday by the minister of state, Gyoergy Marosan.

Informed sources said those seized are men and women of up to 80 years old. Most of them have been sent to concentration camps. The roundup, which lasted at least a week, is the largest since the Russian army crushed the revolution last November.

Some in Budapest believe the new police activity may be a prelude to public trials to be staged in September for the purpose of showing that there was "imperialist inspiration and intervention" last fall.

SHADES OF MARK TWAIN: Gary Fehrenbach, 11, who won the Huckleberry Finn contest at yesterday's Huck Finn-Becky Thatcher Seafair Fishing Derby at East Green Lake, pulled the braid of

Carol Johnson, 10, who won the Becky Thatcher title. Both children won bicycles. The derby was sponsored by Eagleson Post, Veterans of Foreign Wars. (See Page 14 for another photo and details.)

Building Of Lodge Itself 'Possible'

The Rockefeller interests may build a public lodge in Mount Rainier National Park, Senator Henry M. Jackson said yesterday.

Jackson made public a letter in which Laurence S. Rockefeller of New York said his family would finance a study of the problem of providing overnight accommodations for visitors to Mount Rainier.

The Rockefellers will spend at least \$25,000 on the study, the senator said.

A Rockefeller organization, Jackson Hole Preserve, Inc., built a large hotel in Grand Teton National Park, Wyo., and has financed accommodation in the Virgin Islands National Park and other areas.

Study Comes First
Rockefeller said in his letter to Jackson that after the study is made "our trustees will consider whether we might wish to concern ourselves directly, as you suggest, in the construction or operation of any recommended facilities."

But Rockefeller warned: "I would like to make it very clear, however, that at this time we do not have

Total Area Of Tract 90 Acres

(See Page 15 for picture map)
By E. B. FUSSELL

The Washington State World Fair Commission is prepared to spend \$2,500,000 in acquiring additional land for a World Fair site in Seattle. The commission announced yesterday.

Most of the property to be acquired by the state lies west and south of the area which Seattle has designated as its Civic Center site. The cost of city and state land acquisition would total \$5,000,000. The city previously had earmarked \$2,500,000 for land acquisition.

The state plan also includes the block occupied by the Warren Avenue School, which was by-passed in the city land-acquisition plan.

Fair Set for 1960-61

The broadened development program will make a 90-acre tract available for the projected World Fair, tentatively scheduled for 1960-61.

The World Fair and Civic Center groups each will have about \$5,000,000 available for buildings, landscaping and other improvements after completing the land acquisition.

"Both groups are enthusiastic in their support of the broadened program," said Ewen C. Dingwall, project director.

The program received official indorsement from Gov. Albert D. Rosellini and Attorney General J. J. O'Connell at a conference in Olympia Thursday with the commission, headed by Edward E. Carlson.

O'Connell's office will handle the state's purchase-condemnation program, which is expected to require about a year.

School, Church Talks Begun
Talks dealing with acquisition of the Warren Avenue School already have been begun with the Seattle Public Schools, Dingwall said.

BANTY AND 'BABIES': Superior Court Judge Ward W. Roney watched with amusement the antics of Prudence, a pet Bantam hen at his dairy farm near Duvall. Prudence has reared two young turkeys in the mistaken belief they are her own chicks. The turkeys now are larger than their foster mother.

Prudence Imprudent When It Comes To Mothering Instinct

By JOHN J. REDDIN

Probably the most bewildered chicken in King County is Prudence, a Minorca Bantam hen that has the run of the Duvall dairy farm of Superior Court Judge Ward W. Roney.

For the past two months, the placid life of Prudence has been one unpleasant surprise after another.

It all began when Judge Roney purchased three baby turkeys and slipped them surreptitiously under Prudence in the dark of night while she was brooding.

Prudence immediately became a devoted mother—or at least tried to be. She attempted to sit on her fast-growing chicks, but at least the courage to go on when danger threatens and the 'chicks' run to her for
